

PATENT COOPERATION TR PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

PCT/AL/2003/001586 Applicant THE CORPORATION OF THE TRUSTEES OF THE ORDER OF THE SISTERS OF MERCY IN QUEENSLAND et al. This international search report has been prepared by this international Searching Authority and is transmitted to the applicant according Article 18. A copy is being transmitted to the International Blureau. This international search report has been prepared by this international Searching Authority and is transmitted to the applicant according Article 18. A copy is being transmitted to the International Blureau. This international search report consists of a total of 5 sheets. It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language and the international search was carried out on the basis of the sact of the international application furnished to this Authority (Rule 2.3.1(b)). With regard to any brucketide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing contained in the international application in written form. X filed together with the international application in computer readable form. It furnished subsequently to this Authority in written form. Under the subsequently to this Authority in written form. The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the internation application as filed has been furnished. The superior of the deal of the statement of the subsequently furnished written sequence listing does not go beyond the disclosure in the internation furnished. The superior of the title, X the text is approved as submitted by the applicant. The text has been established, according to Rule 38.2(b), by this Authority as it appears in Box report, submit comments to this Authority. With regard to the drawings to be published with the abst	Applicant's or agent's file reference 12373860/EJH International application No.	FOR FURTHER ACTION	see Notification of (Form PCT/ISA/2:	Transmittal of International Search Report 20) as well as, where applicable, item 5 below
This international search report has been prepared by this international Searching Authority and is transmitted to the applicant according Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of 5 sheets. It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing: contained in the international application in written form. [In this discepter with the international application in computer readable form. [In the statement that the subsequently to this Authority in computer readable form. [In the statement that the information recorded in computer readable form is identical to the written sequence listing has been application as filed has been furnished. [In the statement that the information recorded in computer readable form is identical to the written sequence listing has been application as filed has been furnished.
